FULL INFO

Splitting their time between music, Skateboards, Motorcycles and sharing every moment along the way; The Picturebooks have become more than a band.

This two-piece, slide heavy Rock/Blues/Alternative/Country HAMMERFIST of a band has cultivated a rabid and loyal fanbase that gravitates to the band as much for their lifestyle as they do for the music. With five albums under their belts and relentless touring worldwide with over 400 shows in the last five years alone, Fynn Grabke (Guitar/Vox) and Philipp Mirtschink (Drums/Percussion) have truly paid their dues; playing venues of all sizes to sharing the big stages with the likes of Clutch, Wolfmother, Pretenders, Black Stone Cherry, Monster Truck, Highly Suspect, Kadavar, Iron Maiden's Steve Harris, and more.

With their 5th album "Albuquerque" now officially released, the boys cannot wait to hit the road again.
