

Jett Rebel

Jett Rebel is not just an artist, but a real phenomenon! Rebel is a singer, songwriter and multi-instrumentalist who turns every stage into a collective outburst of energy. Where others rely on backing tapes, Rebel opts for real playing, real emotion and a mix of funk, soul and real rock 'n' roll. And always straight from the heart, as pure as pure can be!

Jett Rebel is not just an artist, but a real phenomenon! Rebel is a singer, songwriter and multi-instrumentalist who turns every stage into a collective outburst of energy. Where others rely on backing tapes, Rebel opts for real playing, real emotion and a mix of funk, soul and real rock 'n' roll. And always straight from the heart, as pure as pure can be!

A Jett Rebel show is like a ritual: a safe place where you let go, celebrate and connect. The audience becomes part of a sultry, pulsating community that is on edge every second and can explode at any moment in one big blaze of energy and love! You just feel that history is being written here, this is larger than life!

After a period of soul-searching, Rebel knows that his calling is really on stage, and that the audience needs him and vice versa. That's why he has formed a new band and starts playing again as if every note is his last: dangerous, intimate, grand and unpredictable.

With new music on the way later in 2026, Jett Rebel is more than back! Stronger, more unpolished and more urgent than ever before. Anyone who sees him knows that there is no bigger rockstar out there right now.
